THE ORIGINAL
HARD COVER SPA

- **CLEAN**
  Dual filters provide more square footage of filtration for a cleaner spa.
- **EFFICIENT**
  Eco Spas are constructed from high density polyethylene and are molded into one solid piece. The Eco Spa dual wall construction and a solid bottom provides quieter operation and better energy efficiency. The Hardcover system with the exclusive power seal technology is 25% more efficient than the average vinyl cover.
- **DURABLE**
  Eco Spas unique Hardcover will hold up to 350 pounds. This durable spa cover and structure will hold up in any climate and will not deteriorate with time like a traditional spa cover.

ECO SPA

Efficient Clean Durable

The Eco Spa is one of the fastest growing hot tubs in the world. Providing a revolutionary 110V plug and play or 220V hot tub that comes with its own Eco Hardcover attached. The Eco Spa comes with a Lifetime Warranty on the cover, as well as on the structure. Not only are they the most maintenance free spas on the market but they are also rated as the most economically efficient in the hot tub industry.

WHY HARD COVERS?

NEVER replace another cover! Forget spending endless amounts of money on a piece of foam. Our hard covers are not only more efficient, but the most durable, light-weight, and easy to use!

Hard Cover Tub Tubs

Did you know that up to 70% of your heat is lost through your soft cover. Break the cycle of insanity and buy an Eco Spa, the original hard cover spa. With a hard cover Eco Spa, you'll never have to buy a flimsy, styrofoam hot tub cover again! Eco Spa Hard Covers are built to last and they are 25% more efficient than other hot tub covers.

Rest assured that you will NEVER again replace your hot tub cover. With the Eco Spa Hard Cover LIFETIME warranty this cover holds up to 350 lbs and withstands the frigid cold climate and snow loads of the Rocky Mountains as well as the blistering sun of the Okanagan Valley. This spa will never fade or wear, and will always look as beautiful as the day you buy it!

Eco Spa hot tubs offer the most durable, energy efficient spa in its class, made from the highest quality rotationally molded products on the planet, including the first Hard Top Cover for a portable spa.

Eco Spa Hot Tubs are the only energy efficient hot tubs with a lifetime structural warranty. Say goodbye to polishing, sanding, and staining, and start enjoying the benefits of owning a hot tub.

NEVER replace another cover! Forget spending endless amounts of money on a piece of foam. Our hard covers are not only more efficient, but the most durable, light-weight, and easy to use!

Eco Spa Accessories

Eco Spa Hard Cover and Lifter System

The Eco-Hard-Cover and lifter system has a true lifetime warranty. It is easy to open and close and will withstand 350 pounds. This durable spa cover will hold up in any climate and will not deteriorate like a traditional spa cover. The exclusive power clamp system ensures an efficient seal between the Eco-Hard-Cover and the spa itself making our cover 25% more efficient than any hot tub cover on the market. The Eco-Hard-Cover will not only save you money on your utility bill but will also save you the time, energy and cost of replacing your cover every 5 years.

Eco Spa Multicolor Exterior Lighting

Enhance the waters appearance and create a soothing ambiance for a more enjoyable spa experience. With 9 different color options you can select the color that fits your mood. You may choose from a single LED light, or the Aurora Lighting System which includes lights inside as well as the outside of the spa.

Ecozone Natural Spa Sanitation

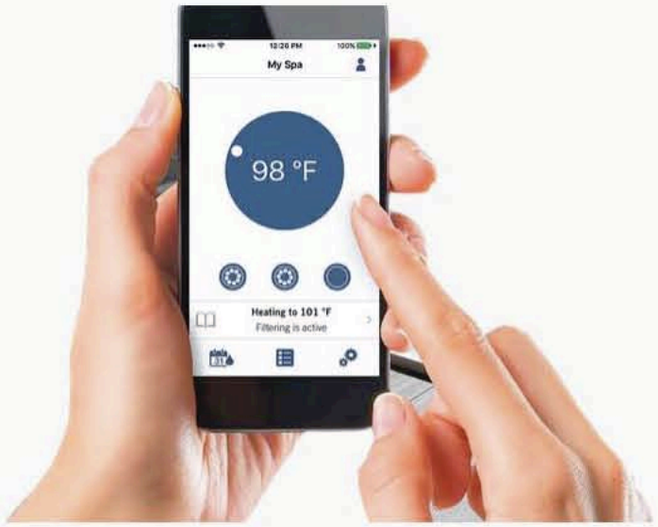
The ozone generator greatly reduces the amount of chemical sanitizer you need in the water. Ozone delivers activated oxygen gas into the spa water via a small ozone injector. Although sometimes promoted as a stand-alone chemical free alternative, it is recommended that you maintain a small residual of Chlorine or Bromine in the water while using any ozone system.

Eco Spa Jet Lights

- In the Ultimate Lighting package, all jets are backlit through clear sections with technology that neither affects water flow, nor creates a leak potential. The Eco Spa jet lights look amazing during the day and even better at night... Check out some of our videos on our You Tube Channel.

Storage Step

The Eco Spa storage step is made of the same material used to make the shell of the spa, offering a perfect color match. These steps are durable, stable, and come with a storage compartment for spa chemicals, test kits, and other maintenance items as well as a pull-out insert which can be used as an ice chest.



EcoSpa WIFI Control System

By adding the optional Wi-Fi module to your Wi-Fi-ready EcoSpa, you can control your temperature, lights, and jets as well as customize your settings.....from anywhere.

Eco Spa Warranty

LIFETIME STRUCTURAL

The structural integrity of the ECO SPA is warranted to be free of defects for lifetime. Should the ECO SPA structure develop a defect and not hold water within the warranty period, it will be repaired or replaced (at FPI's discretion) by FPI. The labor cost of removing and reinstalling the original equipment in the new spa shell along with any related shipping charges are the responsibility of the Spa owner.

LIFETIME ECO-HARDCOVER WITH ATTACHED ARMS

The ECO-HARDCOVER WITH ATTACHED ARMS is warranted for Lifetime to be free from defect in materials and workmanship. Clamps are provided and should be used to better trap heat and keep the cover true to the spa.

3 YEARS PLUMBING

ECO SPA warranties all plumbing parts to be free from defects in material and workmanship for a period of three (3) years from original date of purchase. This limited warranty specifically covers leaks from wall fittings jet fittings, internal plumbing, internal glue joints, drains, air controls, diverter valve and light lens. Component or Jet damage caused by chemical extremes and/or chemical imbalances in the water is not covered by this warranty.

3 YEARS COMPONENTS

ECO SPA components, including top side control, spa control pack, pump, heater and, if so equipped, ozone unit and LED lighting systems, are warranted to be free of defects or leaks for a period of three (3) years from the OEM date of manufacturing. Defective components within three (3) years will be replaced or repaired (at FPI's discretion) by FPI.
